Fish & Richardson is a leading global law firm practicing in the areas of intellectual property and litigation. Founded in 1878, the firm prosecuted and litigated many of the fundamental patents of an industrializing America: the telephone, the airplane, the light bulb and the radio. For over 130 years, Fish has been serving great innovators, helping protect countless ideas, nurturing discoveries, and facilitating the entry of new concepts to market. Today the firm continues to be the go-to IP firm for great innovators in cutting-edge technologies. Fish's elite legal team uses technical and legal expertise, along with strategic business insight, to serve clients who value intellectual property.
