Overview

About Brianna

Brianna Chamberlin is a litigation associate in the Twin Cities office of Fish & Richardson P.C. Ms. Chamberlin's practice spans a wide range of technologies, including small compound and biologic pharmaceuticals, chemicals, medical devices, oil and gas production, as well as memory devices and software.

Ms. Chamberlin has handled various aspects of offensive and defensive complex patent litigation from due diligence through trial, including: pre-suit due diligence, fact and expert discovery, taking and defending depositions, claim construction briefing, drafting and arguing dispositive motions, and direct examination of witnesses at trial. Ms. Chamberlin also has experience drafting appellate briefing submitted to the U.S. Court of Appeals for the Federal Circuit.

During law school, Ms. Chamberlin was a research assistant to Professor Jason Rantanen, conducting empirical research and writing on patent law. Prior to law school and while pursuing her bachelor's degree, Ms. Chamberlin worked in the Matzger Group at the University of Michigan, where she focused her research on crystal polymorphism of pharmaceutical materials.
