Overview

Hui Kwon Yang focuses his practice on patent litigation across a broad range of technologies, including in the fields of electrical and computer engineering.

Prior to entering the legal field, Hui Kwon worked as an electrical engineer, and his extensive engineering background spans technologies from power systems and electric machinery to renewable energy systems. His legal experience includes drafting petitions and performing legal research related to patent and copyright law and public utility regulatory matters.

In law school, Hui Kwon was a Law and Public Policy Scholar and wrote a policy paper on energy storage and the adoption of renewables on distribution systems.
