## Overview

---

### About Indrajit

Indrajit Das is a technology specialist in the Atlanta office of Fish & Richardson P.C. His practice focuses on patent prosecution in the areas of computer software, internet technologies, digital health, machine learning and artificial intelligence. Prior to joining the firm, Mr. Das worked as a machine learning engineer at a medical startup, where he engaged in R&D for automatic analysis of skeletal muscle mitochondrial capacity using near-infrared spectroscopy.

Mr. Das received his master's in computer science from the University of Georgia with an emphasis on artificial intelligence. His thesis area was multi-agent systems where he devised methods using inverse reinforcement learning for identifying risk-prone human drivers. He also received a master's in computer science from Vellore Institute of Technology in India, during which he worked in the areas of symmetric and asymmetric key cryptography.

### Focus Areas

---

### Services

- Patent

### Industries

- Electrical and Computer Technology

## Education

---

M.S., Computer Science, University of Georgia (2016)

M.S., Computer Science, Vellore Institute of Technology (2011)

B.S., Computer Science, University of Burdwan (2009)

## Insights

---

### Select Publications

- “Improving the Efficiency of Mitochondrial Capacity Measurements using Near Infrared Spectroscopy,” *Experimental Biology* (2019)
- “Effectiveness of 6-Ischemic Cuff Mitochondrial Capacity Analysis,” *Submitted SEACSM* (2018-19)
- “Advances in Computer Science and Information Technology,” *Networks and Communications Lecture Notes in Computer Sciences, Social Informatics and Telecommunications Engineering Volume 84* (2012)
- “A New Secret Key Cryptosystem-C128,” *Advances in Computer Science, Engineering & Applications – Advances in Intelligent Systems and Computing, Volume 167* (2012)
