## Overview

---

### About Jacqueline

Jacqueline Blackwood is the retention and compliance supervisor for Fish & Richardson P.C. Under the direction of the director of risk management and the senior manager of systems compliance, she is responsible for working with various firm teams to implement the firm's retention and compliance procedures. She is also responsible for managing, planning and performing records analysis associated with client pruning.

Prior to her retention and compliance role, Ms. Blackwood was a litigation case manager with over eight years of experience managing all phases of patent cases from pre-suit investigation through trial.

Ms. Blackwood has been with the firm since 2007 and completed the specialized training "Legal Project Management Skills" through LawVision in 2014.
