## Overview

Jessica Wang focuses her practice on patent litigation. With a technical background in chemical engineering and biotechnology, Jessica has worked with a wide range of technologies, including pharmaceuticals, semiconductors, and batteries.

Jessica has experience at various stages of litigation. Her work includes conducting pre-suit diligence, analyzing infringement and invalidity of patents, conducting legal research, drafting briefs and memoranda, drafting discovery, and preparing for depositions.

Prior to joining Fish & Richardson, Jessica drafted patent applications, responded to office actions, and drafted contracts, including license agreements, for life science technologies.

As a law student, Jessica served as an article editor for *Berkeley Technology Law Journal*.
