Overview

About Jong Wan

Jong Wan Suh is an associate in the Washington, D.C., office of Fish & Richardson P.C. Mr. Suh focuses his practice on patent prosecution support in the electrical and computer technology industries, and has experience prosecuting patent applications before the U.S. Patent and Trademark Office, client counseling, patent strategy development, and patent portfolio management. His areas of technical expertise include artificial intelligence, computer software, cyber security, MEMS, and electronic musical instruments. Before joining the firm, Mr. Suh was an electrical engineer at Intel, where he worked on the development of microprocessors.
