Overview

About Juan

Juan Perez is a technology specialist and patent agent in the Austin office of Fish & Richardson P.C. His practice supports patent prosecution in the areas of mechanical and electrical devices and software, including heating, ventilation, and air conditioning systems, consumer products, fasteners, robotics, medical devices, and technologies relating to semiconductor processing and devices. Prior to joining the firm, Mr. Perez worked as a patent engineer writing specifications for patents in the mechanical arts.

Mr. Perez graduated with honors from the University of Texas Rio Grande Valley (UTRGV), where he received the Great Minds in STEM Scholarship and the Marathon Oil Collegiate Scholarship. As a student, Mr. Perez interned with TD Industries and Halff Associates, with a focus on refrigeration design and construction management. He also interned with Ambitech, focusing on pipe stress analysis and engineering management, where he gained knowledge of equipment in the oil and gas industry. Mr. Perez also has three years of interdisciplinary undergraduate research experience in nanotechnology, acquired at the nanotechnology center of UTRGV. His research focused on energy-storing devices, smart materials, and electromagnetic interference shielding technology.

Focus Areas

Services

- Patent

Industries

- Consumer Products
- Electrical and Computer Technology
- Energy and Petro-Chemical
- Internet
- Manufacturing
- Medical Devices
- Nanotechnology

Education

B.S. *cum laude*, Mechanical Engineering, University of Texas at Rio Grande Valley (2016)

Recognition

Recipient of Great Minds in STEM (GMIS) “Outstanding Scholar” Award

Languages

- English
- Spanish
