## Overview

---

### About Lauren

Lauren Yablon, Ph.D., is a technology specialist in the Boston office of Fish & Richardson P.C. Dr. Yablon focuses her practice on patent prosecution support in the chemical sciences. Prior to joining the firm, Dr. Yablon earned her Ph.D. in chemistry from Columbia University, where she performed research in polymer photochemistry. While at graduate school, she was a research fellow at Columbia University Technology Ventures, where she evaluated the patentability of university-developed technologies.

### Focus Areas

---

### Services

- Patent

### Industries

- Chemicals
- Life Sciences

## Education

---

Ph.D, Chemistry, Columbia University (2020)

B.S. *magna cum laude*, Chemistry, with minor in Math, Boston College (2015)

## Insights
