Overview

About Michael

Michael Vincent counsels clients in intellectual property and commercial disputes, with an emphasis on patent litigation. He is experienced in a diverse array of technologies, including wireless networking, consumer electronics, aerospace manufacturing, website systems, offshore drilling, software, 3D printing, security systems, consumer products, and medical devices.

This technical proficiency complements Michael's capability as a courtroom advocate, having successfully argued several *Markman* hearings and numerous dispositive motions in the Eastern District of Texas, the District of Delaware, and the Northern District of California. Michael excels at managing cases and developing strategies on non-infringement, invalidity, and claim construction. In addition to his district court practice, Michael also represents clients in *inter partes* reviews before the Patent Trial and Appeal Board and in appeals before the Federal Circuit.

Michael previously served as a judicial intern for the Honorable K. Nicole Mitchell of the U.S. District Court for the Eastern District of Texas and, before that, provided technical consulting for a patent prosecution firm. In his prior career, Michael worked at Bell Helicopter as a flight controls and hydraulics engineer for military and civilian aircraft.

Focus Areas

Services

- Litigation

- Post-Grant
- Commercial Litigation
- Patent Litigation
