Overview

About Noel

Noel Gordanier is a technology specialist and patent agent in the Twin Cities office of Fish & Richardson P.C. His practice supports patent prosecution and litigation in the areas of software and manufacturing. His technical knowledge includes programming, user interface design, relational databases, data mining, object-oriented patterns and architectures, operating systems, wireless communication, SMS gateways, web services, robotics, speech recognition and synthesis, computer security, computer graphics and animation, and audio production.

Mr. Gordanier's previous experience includes working as an independent software consultant, developing cell phone and text messaging applications; as a software engineer for Vertical Systems, Inc., developing applications for mobile and wireless devices, as well as developing and integrating back-end database server applications; and as a programmer and quality assurance specialist for Alto Consulting & Training, developing office automation applications.
