Overview

About Patrick

Patrick Rothstein, Ph.D., is a technology specialist, patent agent in the Twin Cities office of Fish & Richardson P.C. His practice focuses on patent drafting and prosecution in organic and inorganic chemistry, nanotechnology, pharmaceuticals, biotechnology, and materials science. He has experience prosecuting patent applications at the United States Patent Office (USPTO) and foreign patent offices, working with clients to develop prosecution strategies related to their innovations, and counseling clients regarding invalidity, freedom to operate, patentability, non-infringement, and due diligence matters.

Prior to his patent practice, Patrick earned his Ph.D. in Chemistry from the University of Notre Dame, where he designed and synthesized catalysts for small molecule activations. He also worked as a research assistant at the University of Minnesota, where he received his B.Sc. in chemistry, and a research assistant at Pohang University of Science and Technology in South Korea.

Focus Areas

Services

- Patent
- Opinions and Strategic Counseling
- Patent Prosecution

Industries

- Chemicals
- Energy and Petrochemical
- Life Sciences
- Nanotechnology

Education

Ph.D., Inorganic Chemistry, University of Notre Dame (2017)

B.S., Chemistry, University of Minnesota (2012)
