Overview

About Polina

Polina Borisova is a technology specialist in the Silicon Valley office of Fish & Richardson P.C. Her practice focuses on patent drafting and prosecution in the areas of mechanical engineering, materials, electrical engineering, and computer-related technologies. Her extensive research and development experience includes positions at National Taiwan University, University of Cambridge, and Sumitomo Electric Industries.

Before joining the firm, Polina was a patent attorney trainee at an intellectual property boutique firm in London and Munich, where she worked extensively with clients in the United Kingdom, Japan, and the U.S. in patent prosecution and post-grant opposition proceedings before the European Patent Office.
