Overview

About Vince

Vince Beacom is a technology specialist and patent agent in the Twin Cities office of Fish & Richardson P.C. He focuses his practice on patent prosecution and patent drafting in the mechanical and medical arts. He has experience drafting and prosecuting patent applications at the United States Patent and Trademark Office (USPTO) and foreign patent offices, patentability searching and analysis, competitive analysis, patent portfolio management, and patent portfolio landscaping. His technological expertise includes medical devices, prosthetics and orthotics, biometrics, sports and fitness, optics and imaging, flow control systems, industrial minerals, information technology and electronics, and financial systems and software. Before he began his patent practice, Vince was a biomedical engineer, where he worked in the production of sleep apnea devices, snore therapy devices, antimicrobial IV dressings, oral soluble pharmaceutical strips, and transdermal drug delivery patches.
